

## DM32410

by Acme Electric  
Catalog ID: DM32410

DIN-Rail, Power Supply, 240W 24V 3PH

Acme's new flagship line of DM Series DC power supplies are an innovative solution to a vast array of control applications. Designed to provide optimal performance with a minimal impact on installation time and space. Currently available in single and three phase models from 0.6 to 20 Amps (15-480 watts) these new power supplies provide the convenience of DIN-rail mounting for a toolless installation and the versatility of a standard auto-ranging input to cover the most application with the fewest models.

- All housings conveniently snap onto standard 35 mm DIN-rail assuring permanent mounting without the use of any tools
- DC power now comes in a smaller package
- Slimline single phase models measure as small as 32 mm wide to conserve valuable space on the DIN Rail and in the overall control cabinet
- Universal input eliminates voltage gaps for full product application versatility

### Product Details

#### General

Operating Temperature Range Celcius	-10 to +60 Degrees
Type	DIN Rail
UPC	047503000304

#### Dimensions

Height	5.12 in
Length	4.96 in
Weight	2.76 lb
Width	3.43 in

#### Electrical Ratings

Amperage Rating	10.0 - 8.6 A
Efficiency	89%
Frequency Rating	47-63 Hz
Output Voltage	24 VDC
Voltage Rating	<ul style="list-style-type: none"> <li>• 340 - 575 VAC</li> <li>• 450 - 820 VDC</li> </ul>
Wattage - Maximum	240 W

#### Certifications and Compliance

Certified Listed	cUL, CE
UL Listed	Yes
